Streamlining Tools

- Online Manuscript Submission and Peer Review
- Citation Parsing
- Figure Verification

Online Manuscript Submission and Peer Review

- Submission
- Peer Review
- Decisions
- Revisions
- Reporting
- [Demonstration](#)

Citation Parsing

- After Article file upload the system can now try to determine the Reference section of the paper and create a Parsed Citations file used to verify citations.
- [Demonstration](#)

Figure Verification

- Allen VeriFig™ is a web-based application
- Quickly determines whether files/figures are correctly formatted and prepared according to digital specifications
- *Complimentary* for Allen Press clients
- Saves time and energy - any author or editor can submit multiple files online and receive a direct feedback report via e-mail
- Feedback provides details about the resolution, fonts, and color mode of the files. If a file fails a list of errors and a link to the Digital Art Preparation Guide are available.
- Allows you to analyze files before they are submitted for final production
- Preflighting art files avoids costly alteration charges
- [Demonstration](#)

Recap

- Online Manuscript Submission and Peer Review
- Citation Parsing
- Figure Verification
